#### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 16 stands withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/06/06.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4,8,10,12 -1519,21, & 32 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a formulation consisting of a cyclomethicone & isopropyl myristate(IPM) , does not reasonably provide enablement for any carrier(s). The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims. See [oo20 & 0039], only these 2 are free of insecticides & effective as claimed.

#### ***Claim Rejections - 35 USC § 103***

Claims 1-4, 12-15, 32 stand rejected under 35 U.S.C. 103(a) as being unpatentable over PEARLMAN

PEARLMAN shows human head lice, treated within 6 seconds to 2 hours, and combed out (summary, lines 40-67 and 2<sup>nd</sup> paragraph, column 3) after drying by evaporation and heating. The drible pediculostatic agent is applied at 0.1-100% (column 11, lines 22-23, 36-40) with a silicone (column 12, lines 34-38). No patentable weight is given to how the ectoparasites are killed-application of the same active, fatty esters, including IPM, would result in the same effects. This is the instant method step.

***Response to Arguments***

Applicant's arguments filed 4/01/09 have been fully considered but they are not persuasive. See the continued rejection under Pearlman, obviously. The elements required in the claims as presented are here. However, the previous rejections are withdrawn in view of amendments & attorney's arguments.
